

Universal Programmable Counter CT34

- Availableasa totalizer, rate meter, or combined
- ♦One or two 6-digit LED displays
- ♦ Pulse-and analog-input versions
- ♦ Programmable divider and multiplier
- ♦ Pulse counting and batch counting
- ullet Additional inputs CLEAR, GATE, and DIRECTION
- ♦6 user-selectable operating modes plus dosing mode
- ♦Up to 2 programmable relay outputs
- ♦Optional optical input isolation up to 1500 VAC
- ♦RS485 serial interface available

CT34 is a sophisticated new-generation counter equipped with a 6-digit display, which can hold up to 999999 count units or batches, and may have up to 2 programmable relay outputs and an analog output for alarm signaling or process controlling. CT34 is available as a counter, as an R.P.M. meter, and as a combination of both. As a counter, this model allows programming of 7 different counting and output-relay-action modes (including dosing mode) as well as counting pulses or pulse batches. The R.P.M.-meter variant has 6 operating modes. Besides its counting input, CT34 has 3 additional inputs – CLEAR, GATE, and DIRECTION – and a user-programmable software input filter. Other useful features include fraction number coefficient prescaler and programmable actual and displayed counting directions. With its various features and flexible programmable internal structure, the CT34 counter is a widely applicable device.

| Inputs | |
|------------------------------|--------------------------------------|
| Counting input: | |
| -pulse, w/programmable | mechanical contact (NO) or |
| active front | electronic (from PNP / NPN sensor) |
| -analog, programmable (1,2) | 0(4)20 mA or 05(10) V |
| Input CLEAR | resets counter to '0' (4 functions) |
| Input GATE | enables pulse counting |
| Input DIRECTION (3) | changes counting direction |
| Maximum input frequency | 5 kHz |
| Input filter | for suppression of contact bouncing |
| Prescaler coefficients | 19999, multiplying and dividing |
| Input isolation (option) (3) | optical, 1500 VAC |
| Modes | |
| Operating modes | 7 (incl. dosing mode) |
| Counting modes | pulse counting and batch counting |
| Counting range | 02147483647 |
| Programming | through keyboard |
| Outputs | (up to 2 outputs) |
| Relay electromechanical | 5A/250V w/ NO/NC (4) contact |
| Solid state relay (5) | 1A/250VAC |
| MOS gate ⁽⁵⁾ | 0.1A/60V, optically isolated |
| Transistor gate (6) | open collector, 40mA/40V |
| Output for external SSR | 524 V, 30 mA |
| Relay action | according to the mode ⁽⁷⁾ |
| Output pulse duration | 0.199.9 s, programmable |
| Analog output (8) | 0(4)20 mA or 010 V, isolated |
| Serial interface (1) | RS485, isolated |

⁽³⁾ Only with pulse input type!

⁽⁴⁾ NO for case 'L'

⁽⁵⁾ Ask for availability!

⁽⁶⁾ ONLY with isolated power supply!

⁽⁷⁾ In case of variant 'CR' with pulse input, if not additionally specified, 1st relay is linked to counter and 2nd – to R.P.M. meter. With analog input, 1st relay is firmly linked to counter and 2nd relay is user programmable.

⁽⁸⁾ Instead of 2nd relay (_G5)!
(9) Not available for case 'S'
