## Options

### Cable attachment head

Standard

Measuring cable attachment with a lug.

### Cable attachment fitted with a M6 threaded rod

OP-M6

The rod attachment uses a threaded rod with 2 nuts (provided).  
The required thickness of the plate does not exceed 5 mm.  
The attachment mounted on ball bearings allows a free rotation relative to the measurement cable.

### Cable attachment with a clevis

OP-CP

The attachment of the clevis is done using a pin (provided).  
The attachment mounted on ball bearings allows a free rotation relative to the measurement cable.

### Cleaning brush for the cable

OP-BR

The cleaning brush wipes the cable in dusty or humid environments.

## Water evacuation holes

OP-TEV

The holes allow the natural flow of fluids out of the sensor in order to avoid their accumulation in the system.

Please specify the implantation angle of the drain holes on the drawing below.  
(All value between 0 and 360°)
